CRUD Application using react

Apr 2022 - Jan 2023

Role

Self Work

Pune: offsite

CRUD Application using React Technologies : React, JavaScript , CSS, RESTful APIs, Node.js (if applicable), MongoDB /SQL (if applicable) Developed a fully functional CRUD (Create, Read, Update, Delete) web application to manage [describe the purpose , e.g., "tasks," "inventory ," or "user data"]. Implemented user-friendly interfaces using React Hooks, React Router, and reusable components for scalability . Integrated RESTful APIs for data communication with the backend (or mock JSON data for frontend -only project). Optimized state management with useState and useEffect for better performance and responsiveness . Styled the application with CSS/Styled-Components /Material -UI for a modern , polished design . Added basic authentication and error handling for secure and reliable user interactions (if applicable).
