PROFESSIONAL SUMMARY

I am a Computer Science undergraduate with hands-on experience in Python, Machine Learning, NLP, and full-stack web development. Delivered production-quality software across two industry internships. Proficient in REST API integration, computer vision, and data-driven problem solving. Seeking a Software Engineer or AI/ML entry-level role.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6+), SQL, R, HTML5, CSS3
AI / ML: Machine Learning, NLP, Prompt Engineering, Computer Vision, Data Preprocessing, Scikit-learn
Libraries & Frameworks: Flask, OpenCV, MediaPipe, NLTK, NumPy, Pandas
Web & Databases: REST APIs, Responsive Design, Flexbox, CSS Grid, MySQL, SQLite
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Postman, Linux, AWS (Fundamentals)

EDUCATION

Narayana Engineering College, Gudur — B. Tech in Computer Science & Engineering | *Expected Apr 2026* | *CGPA: 8.5/10.0*

INTERNSHIP EXPERIENCE

Software Development Intern | Innovate *Solutions.co* | Chennai, India *May 2024 – Aug 2024*

- Built an NLP-based chatbot in Python to automate customer query handling, implementing tokenization, intent recognition, and keyword-matching pipelines using NLTK and regex.
- Designed edge-case handling and optimized conversational workflow logic, improving response accuracy and reliability for production deployment.

Web Development Intern | Apex *Planet Solutions* | Pune, India *May 2025 – Jul 2025*

- Developed cross-browser-compatible, responsive web interfaces using HTML5, CSS3, and JavaScript (ES6+), including form validation, to-do apps, and third-party API integrations.
- Deployed a portfolio website leveraging Flexbox and CSS Grid; applied semantic HTML and performance best practices to achieve fast, production-ready load times.

PROJECTS

Air Magic — Gesture-Based HCI System | Python*, OpenCV, MediaPipe, Flask*

- Built a real-time vision-based gesture recognition system for touchless screenshot capture using MediaPipe hand-tracking and OpenCV landmark detection; Flask backend enabled cross-device support.
- Use regular webcam and open-source libraries (Media Pipe, OpenCV, Flask), avoid expensive external sensors or devices.

Sky Cast — Weather Forecast Web App | HTML*5, CSS3, JavaScript, OpenWeatherMap API*

- Developed a responsive weather dashboard with geolocation-based retrieval, async Fetch API calls, and a mobile-first 5-day forecast UI integrated with OpenWeatherMap's REST API.
- Implemented API integration, async data handling, and responsive UI to provide a seamless 5-day forecast experience across devices.

Play Guardian — AI Automation Agent | Python*, Prompt Engineering*

- Engineered a modular AI agent using structured prompt engineering workflows; implemented decision pipelines with robust edge-case handling for reliable, scalable automation.
- Worked on debugging agent behavior, handling edge cases, and improving response reliability.

CERTIFICATIONS & LEADERSHIP

Certifications: Java Programming (Code Tantra) | Cloud Computing (NPTEL) | CodeChef Java Rating: 500
Leadership: Member, Coders Club (Jan 2024–Present) | Member, Robotics Club (Jan 2024–Present)
