PROFILE

MBA in Banking & Finance with expertise in due diligence investigations, in-depth research and regulatory compliance. Drive policy creation, review and implementation; maintain precise documentation and records. Perform ongoing monitoring, audits and risk assessments. Deliver clear compliance reports and lead employee training on evolving regulations. Proactively research new laws to evaluate organizational impact. Excel at pinpointing risks, implementing mitigations and building a proactive compliance culture via thorough investigations and team collaboration.

WORK EXPERIENCE

Spero Healthcare Innovations Pvt. Ltd., Pune. **OCT 2025 - PRESENT**

Compliance Documentation Associate

- Author comprehensive user manuals, training guides, technical documentation, SOPs and process records for healthcare applications, EMS solutions and Home Healthcare systems, ensuring version control and consistency for internal audits.
- Develop, review and implement internal policies, procedures and code of conduct aligned with DPDP, ISO 27001, ISO 9001, GDPR and HIPAA, while maintaining accurate records of compliance activities, audits and investigations.
- Lead risk management by identifying, assessing and mitigating compliance/process risks; conduct root cause analysis (RCA) on documentation gaps, audit findings and non-conformities to drive improvements.
- Execute regular internal audits, operational monitoring and compliance reporting including status updates, breach findings to senior management.
- Collaborate with cross-functional teams (product, QA, development, operations) to align all documentation for accuracy, clarity and regulatory compliance; deliver employee training programs and act as channel for regulators, legal advisors and external auditors.
- Proactively research emerging regulations, assess business impacts and foster a culture of compliance awareness through targeted education and process enhancements.
- Perform software and process compliance audits, identify gaps, track remediation and support continuous compliance improvement.
- Conducted regulatory and market research across healthcare markets to assess EMS, Home Healthcare and HealthTech opportunities, tender requirements, compliance obligations and documentation readiness.

Vcheck Global India Private Limited, Pune. MAR 2025 - AUG 2025

Investigations Intern

- Conducted comprehensive due diligence investigations on USA individuals and entities, encompassing litigation, regulatory, corporate compliance and sanctions screening (OFAC, UN/EU, FINRA, SEC, DOJ, FTC, NFA, CFPB, etc.) delivering accurate risk profiles.
- Monitored compliance alerts, prepared reports with key findings and risk indicators and ensured all outputs adhered to client guidelines and regulatory standards for informed decision-making.
- Utilized Microsoft Office suite (Excel, Word, PowerPoint) to document, analyze and present complex data with precision, supporting process improvements through variance identification and corrective recommendations.
- Collaborated with cross-functional teams to produce timely compliance and financial reports, enhancing accuracy and operational efficiency.

NextGen Global, Pune. JUN 2024 - AUG 2024

Marketing Intern

- Applied SWOT analysis and market research for strategic insights.
- Generated Excel-based reports for financial and operational tracking.
- Supported compliance with internal reporting standards through expense tracking and documentation.
- Collaborated with teams to align financial and operational data with business objectives.
