EXPERIENCES

Neeyamo — **Feb 2026 to Current**

HR Service Specialst

- Managed the **end-to-end employee lifecycle**, including pre-onboarding, onboarding, post-onboarding, job data changes, employee data management, and offboarding.
- Coordinated **pre-onboarding** by preparing employment documents, verifying employee records, and ensuring onboarding readiness.
- Executed end-to-end **Workday onboarding** by processing new hire records and ensuring accurate employee profile creation.
- Managed **post-onboarding** by coordinating inductions, tracking onboarding tickets, and ensuring timely workflow completion.
- Processed **voluntary and involuntary terminations** in Workday, coordinated exit formalities, and ensured timely completion of offboarding workflows.
- Processed a wide range of **job data changes** in Workday, including employee information updates, organizational changes, promotions, transfers, compensation changes, and associated documentation.
- Provided monthly **payroll inputs** updates by maintaining accurate records of new hires, job data changes, compensation updates, and employee terminations to support payroll processing.
- Validated monthly **pay registers (PR)** ensuring data accuracy and identifying discrepancies before payroll processing.
- Reviewed and validated **compensation reports and population reports** to ensure consistency, completeness, and compliance with organizational standards.
- Handled HR service requests through **ServiceNow**, managing tickets within defined service level agreements **(SLAs)** and providing timely resolutions.
- Collaborated with clients, managers, HR Business Partners, Talent Acquisition teams, and other stakeholders while ensuring compliance with organizational policies, SOPs, and data privacy standards.

PROJECTS

Automated Attendance & Payroll System: Created an end-to-end attendance and payroll workflow model in Excel with a separate attendance tracker linked to payroll for salary calculation based on days worked, allowances, statutory deductions (PF, ESIC, PT), and automatic month-wise net pay.

People Analytics Dashboard: Designed an employee attrition analysis dashboard using Advanced Excel, leveraging pivot tables, advanced formulas, and dynamic charts to identify attrition trends across departments, age groups, gender, education levels, and job roles, enabling data-driven HR insights..
