PROFILE

As a highly motivated finance graduate holding an MBA in Finance and HR, I possess hands-on experience in financial modelling, budgeting, reporting and data analysis. I am proficient in utilizing financial software, Advanced Excel, Power BI, Tally, and Tableau for in-depth financial analysis. With strong problem-solving abilities and a keen interest in financial markets, I am eager to apply my academic knowledge and practical skills in a finance position.

PROFESSIONAL EXPERIENCE

FINANCE TRAINEE 06/2023 – present

INVACT METAVERSITY

- Developed over 50 complex financial models, including ratio analysis, three-statement forecasting, and Free Cash Flow analysis.
- Demonstrated expertise in data manipulation, extensively using Pivot Tables and mastering over 50 Google Sheets functions, as well as creating dashboards for data visualization.
- Skilled in managing financial tasks such as sales, costs, receivables, payables, equity, and expense-variance analysis, employing advanced data cleaning and analytical techniques.
- Proficient in VLOOKUP, text functions, DuPont analysis, vertical and horizontal analysis, and forecasting profit & loss, balance sheets, and cash flows.

EDUCATION

MASTER OF BUSINESS ADMINISTARTION (MBA)- FINANCE AND HR

Karnataka State Women's University Vijayapura

PROJECTS

Working Capital Management

Conducted a comprehensive five-year analysis of a cooperative bank's balance sheets, optimizing working capital management. Identified trends and areas for improvement using advanced financial analysis techniques, and presented findings to senior management. Recommendations enhanced the bank's efficiency and liquidity management, improving its financial performance.

Employee Satisfaction

At Reliance Digital, we recently rolled out a Human Resource Management project aimed at boosting employee satisfaction. We distributed a comprehensive job satisfaction questionnaire to all employees, gathering insights on their work experiences, challenges, and overall job fulfillment

Digital Marketing Project Social Media Engagement Analysis

In my digital marketing project, I performed a comparative analysis of Facebook engagement metrics for top brands like Apple, Samsung, and Mi India. I assessed the likes, comments, and shares of their posts to calculate the average engagement rate for each brand. The results showed that Samsung had the highest engagement, thanks to its creative content, frequent updates, and strategic promotions. From this analysis, I offered suggestions to improve brand engagement strategies.

CERTIFICATES

Financial Accounting And Analysis By IIMB
Completed an intensive finance course at IIM Bangalore, gaining expertise in financial statement analysis including Balance Sheet, Profit and Loss Statement, and Cash Flow Statement. Applied theoretical knowledge to real-world scenarios, enhancing strategic financial management capabilities

Managing Projects with Microsoft 365
The "Managing Projects with Microsoft 365" certification demonstrates proficiency in leveraging Microsoft 365 tools to efficiently plan, execute, and manage projects. It covers key aspects like project scheduling with Microsoft Project, team collaboration through Microsoft Teams and SharePoint, and reporting with Power BI, equipping professionals with the skills to enhance project outcomes and streamline workflows.

Digital Marketing Internshala Training
I earned a certification in Digital Marketing through an eight-week online course, covering Web Presence Development, SEO, Google Ads, Social Media Marketing, Email Marketing, and Google Analytics, with a capstone project on current trends. The program provided a comprehensive understanding of digital marketing strategies and their practical applications.

Human Resources Management Course By OHSC
The "Human Resources Management Course" offered by OHSC delivers extensive training in HR management, covering areas such as recruitment, employee relations, performance management, and adherence to labor laws. It arms professionals with the crucial skills needed to manage HR duties effectively, enhance organizational culture, and foster workforce development.

Human Resource Management
I have enrolled in a complimentary Human Resources Management course that encompasses essential topics such as HRM functions, manpower planning, job analysis, recruitment, selection, compensation, benefits, training, performance management, and employee engagement.

Power BI Certification by Alison
The "Power BI Certification" offered by Alison confirms your proficiency in utilizing Power BI for data visualization, reporting, dashboard creation, and business intelligence. It encompasses essential skills like crafting interactive reports, scrutinizing data trends, and amalgamating data sources, thus preparing professionals to make informed, data-driven decisions and bolster organizational intelligence.
