Work Experience

Jan 2024 - Present

S.M.E - Payroll

Teleperformance Global Services Private LTD (Thane)

Responsible for the accurate and timely processing of payroll, ensuring compliance with statutory regulations and company policies. Played a key role in managing employee payroll data, calculating and processing statutory payments, and generating comprehensive payroll reports. Successfully maintained accurate payroll records, responded to employee inquiries, and ensured a seamless payroll process.

- Managed and administered payroll processes, ensuring accurate and timely disbursement of salaries to employees.
- Calculated and processed statutory payments, encompassing PF, ESIC, PT, and LWF contributions, maintaining strict compliance with regulatory requirements.
- Prepared and submitted comprehensive statutory reports, including PF, ITAX, ESIC, and LWF, adhering to deadlines and ensuring accurate data reporting.
- Reconciled statutory general ledger accounts, verifying the accuracy of payroll-related transactions and ensuring compliance with accounting standards.

Achievements:

- Maintained accurate payroll records and ensured timely submissions, consistently meeting all deadlines and avoiding processing errors.
- Conducted thorough data analysis to identify and resolve payroll discrepancies, ensuring accurate compensation and minimizing financial risks.
- Maintained a flawless record of statutory compliance, with zero non-compliance incidents, safeguarding the organization from potential penalties.
- Effectively addressed and resolved employee queries related to salaries, I-Tax deductions, and system login issues, ensuring a positive employee experience.
- Demonstrated exceptional problem-solving abilities by identifying and resolving complex payroll-related issues, minimizing processing delays and errors.

Apr 2022 - Jan 2023

Associate Software Engineer

NEC Software Solutions (Mumbai)

Responsible for designing, developing, and implementing web applications using Angular, Spring Boot, and RESTful APIs. Worked collaboratively within an Agile development team to deliver a leave management system, ensuring a user-centered approach and adherence to quality standards.

- Collaborated with a team of engineers to develop and implement a leave management system for employees, leveraging expertise in Angular, Spring Boot, and RESTful APIs.
- Designed and developed a responsive and user-friendly front-end framework using Angular, enhancing the overall user experience.
- Implemented effective solutions to resolve code conflicts, ensuring smooth integration and timely delivery of project milestones.
- Actively participated in daily stand-up meetings and Agile ceremonies, contributing to project discussions, status updates, and solution-oriented approaches.

Achievements:

- Successfully delivered a fully functional leave management system, streamlining the leave request and approval process for employees and managers.

- Developed a responsive front-end design that provided an optimal user experience across multiple devices, enhancing accessibility and usability.
- Effectively identified and resolved code conflicts, ensuring seamless integration of software components and preventing development delays.
