ACADEMIC PROJECT

Employee Payroll Management System using Excel

- Created an employee master sheet containing employee ID, department, basic pay, tax, and deductions.
- Used formulas to automatically calculate gross and net salaries.
- Developed a monthly payroll dashboard using Pivot Tables and Charts.
- Added filters for department, month, and employee to view detailed insights.
- Prepared automated payslips linked to employee data.
- Reduced manual payroll errors by 90% and simplified salary analysis for management.

EXPERIENCE

Data Analyst Intern — QSpiders, Ahmedabad

- Completed 6 months of practical training in data analysis.
- Gained hands-on experience using Excel and SQL for data handling and reporting.
- Learned how to clean, organize, and interpret data to find useful insights.
- Worked on small projects to understand data visualization and reporting methods.
