Work History

Workday Techno-Functional Consultant | IBridge TechSoft Pvt Ltd, Hyderabad, TG | January 2025 – Present

- Reduced data entry errors by automating workflows and streamlining data management within the Workday platform.
- Troubleshot issues reported by end-users to schedule system changes and identify permanent solutions.

- Streamlined HR processes for improved efficiency by optimizing Workday modules such as HCM, Payroll, and Benefits.
- Supported clients in transitioning from legacy systems to Workday, ensuring smooth deployment and successful user adoption.
- Developed comprehensive test plans for clients during various phases of implementation, enabling seamless integration with existing systems.
- Collaborated with HR, Payroll, and cross-functional teams to gather requirements and support new or updated Workday processes.

Projects

Project #1: Workday HCM Core, Benefits, Absence

Client: Tufts Medicine

Role: Workday HCM & Benefits Consultant

Duration: Jan 2025 – Present

Description:

Implemented Workday HCM Core, Benefits, Absence modules for a large healthcare organization with 5000+ employees across multiple regions.

Responsibilities (Hands-On):

- Conducted requirement workshops with HR and Payroll teams to gather functional needs.
- Configured **Core HCM** including staffing models, hiring restrictions, job profiles, and organizations.
- Set up Absence Management policies including annual leave, sick leave, maternity leave, and configured accrual rules.
- Configured **Payroll inputs & pay components**, aligned with regional statutory compliance.
- Built **advanced reports** (Matrix & Composite) for HR dashboards and payroll reconciliation.
- Created Supervisory Organizations, Cost Centers, Locations and their hierarchies.
- Designed, configured, and tested Business Processes (Hire, Termination, Transfer, Absence Requests) leveraging the Workday Business Process Framework.
- Assisted in **Workday Security** configuration including Domain Security Policies, Role Assignments, Role-Based Security.
- Provided support for **Workday Compensation setup** including Job Profiles, Grade Profiles and Compensation plans.
- Created **Benefit Plans, Coverage Targets, Rate Tables, Benefit Events**, and **Eligibility Rules** to support end-to-end benefits administration.
- Updated **Coverage Types** and optimized **Enrollment Event Rules** to ensure accurate employee enrollment processing.
- Set up and scheduled **Passive Events** to support automatic updates during lifecycle and year-end activities.

- Managed **Open Enrollment**, including **Pre-Open Enrollment** activities such as updating instructions, validating rates, and coordinating readiness tasks.
- Modified **Benefits-related Business Processes** (e.g., Change Benefits for Life Events) and configured associated notifications.
- Delivered both **Tier 1 and Tier 2 support** for **US and UK Benefits and Payroll**, including troubleshooting, auditing, and resolving employee inquiries.
- Worked on EIBs (Enterprise Interface Builder) for data loads.
- Supported **User Acceptance Testing (UAT)** sessions with stakeholders, fixing configuration gaps before go-live.
- Provided **post-go-live hypercare support by** resolving defects and payroll mismatches.
