About Me:

Finance professional with hands-on experience in SAP ERP (FI module), specializing in invoice processing, vendor management, asset accounting, and bank reconciliation. Skilled in handling end-to-end payment processes, asset code creation, and financial data accuracy. Proven ability to manage transactional finance operations with speed and precision. Eager to grow into a more strategic finance or ERP consultant role, backed by strong analytical and system-driven accounting knowledge. Highly committed to accuracy, confidentiality and delivering precise financial insights.

In addition to my finance expertise, I have also worked as an HR professional in the insurance broking industry, where I was responsible for the full recruitment cycle. This included sourcing, screening, conducting interviews, managing selection processes, coordinating onboarding, and handling documentation. This dual exposure to finance and human resources has strengthened my interpersonal, analytical, and organizational skills, allowing me to contribute effectively across multiple business functions.

Education**:**

- University/School Name:- Completed my S.S.C with 68% from P JOG High School Chinchwad, Pune in the year 2016.
- University/School Name:- Completed my H.S.C with 68.46% from Thakur Vidya Mandir High School and Junior College Kandivali-Mumbai in the year 2018.
- University/School Name:- Completed my Graduation in Bachelor of Commerce (B.Com) with the CGPA of 5.57 from Bhau Saheb Vartak College of Arts ,Science and Commerce in the year 2021.
