LinkedIn : https://www.linkedin.com/in/supriyajadhav24

Summary

MCA graduate with strong analytical skills and hands-on experience in data analysis, data visualization, and database management. Proficient in Python, SQL, Excel, and Power BI, with practical exposure to data cleaning, transformation, and modeling. Experienced in building dashboards and analyzing structured data to generate actionable insights that support business decision-making.

Internship

Web Development At Nextifive Technologies *Feb 2025 – May 2025*

Worked on the development of a Hospital Management System, contributing to both frontend and backend functionalities. Developed web modules using PHP, JavaScript, HTML, and CSS, and handled database operations using MySQL. Gained practical experience in building functional web applications and implementing core features.

AI : Transformative Learning At Edunet Foundation *Feb 2025 – Mar 2025*

Completed a short project on Personal Fitness Tracker development. Used Python, Scikit-learn, Jupyter Notebook, and Streamlit to create a basic, interactive application that tracks and displays fitness data.

Education

Masters of Computer Application (MCA) *2023 - 2025*
Abhijit Kadam Institute of Management And Social Sciences, Solapur.
CGPA : 8.47

Bachelor of Computer Science (BCS) *2020 - 2023*
D. H. B Soni Collage, Solapur.
Percentage: 71.61%

Maharashtra state board HSC (XII) *2019-2020*
A. D Joshi Junior College, Solapur.
Percentage: 54%

Secondary School Certificate SSC (X) *2017-2018*
V.M. Mehta High School, Solapur.
Percentage: 73.20%

Skills

Languages: Python, PHP, SQL, MySQL.

Web Development: HTML, CSS.

Tools: Excel, PowerBI, PowerPoint.

Platforms: Visual Studio Code, PyCharm, Jupyter Notebook.

Data Management & Analytics : DAX, Data Cleaning & Transformation, Data Wrangling(NumPy , Pandas), Data Validation, Data Modelling.

Soft Skills: Quick Learner, Adaptability, Problem-Solving.

Projects

1. **Diabetes Risk & Lifestyle Analysis :**
   Built a Diabetes Risk & Lifestyle Analysis project using SQL Server, Python, and Power BI to analyze diabetes risk and lifestyle factors. Used SQL as the primary tool for data cleaning, feature engineering, and exploratory analysis, including BMI categories, age groups, and risk scoring. Performed light analysis in Python and created interactive Power BI dashboards to visualize diabetes rates, risk levels, and key health indicators for actionable insights.

2. **Flipkart Product Virality Analysis** :
   Leveraged SQL to clean, aggregate, and explore Flipkart product data, identifying key patterns in ratings, reviews, discounts, and categories. Engineered a Viral Product Score to rank products by popularity and provided actionable insights for marketing strategy. Presented findings through an interactive Power BI dashboard to support business decision-making.

3. **Hospital Management System :**
   Contributed to the full-stack development of a Hospital Management System, gaining practical experience in both front-end and back-end web application development. Key contributions involved developing modules using PHP, JavaScript, HTML, and CSS, and implementing MySQL for database operations. This experience demonstrated the ability to build functional web applications and manage core features within a team environment.

4. **Personal Fitness Tracker :**
   Completed a short AI/ML-focused project to develop a basic, interactive Personal Fitness Tracker. The application was built utilizing Python and key libraries like Scikit-learn and Jupyter Notebook, with the front-end developed using Streamlit. The project successfully tracks and displays fitness data, showcasing skills in data science application, machine learning integration, and creating user-friendly interfaces.

Certifications

- **MS-CIT**
- **Industrial Training Certification** - From NMR Generic Software Solution.
- **Python** – SevenMentor PVT Ltd.
- **SQL** – SevenMentor PVT Ltd.
- **PowerBI** – SevenMnetor PVT Ltb.
- **Master Data Management for Beginners** - From TCS ION
- **Data Analytics & Visualization: Using Excel & Python** – Udemy
- **Data Analytics Masters 2025: From Basics To Advanced** – Udemy
