Address - Pune, Maharashtra, India

Summary

Cybersecurity professional with more than 1 year of experience in security assessments, risk analysis, and control implementation across cloud and network environments, with foundational knowledge of ISO 27001, PCI-DSS, and GDPR

Experience

Duration: April 2025 to October 2025
Lentra.AI - Cyber Security Analyst

- Risk Management – Strong understanding of identifying, analyzing, and mitigating cybersecurity risks to protect organizational assets
- SIEM Tools – Hands-on experience using SIEM platforms for security monitoring, log analysis, incident investigation, and threat detection, worked on tools or platforms like Cortex XDR, Prisma Cloud by Palo Alto Networks
- Prepared security reports and dashboards for stakeholders summarizing incidents, SIEM alerts, and risk trends.

Duration: January 2025 to April 2025
Marva AI - Compliance Analyst

- Worked on the "Secure by Design – AI Compliance Practice Build" project to implement and document AI system security compliance.
- Assisted in developing internal protocols for data protection, secure code practices, and AI risk mitigation strategies.
- Gathered knowledge on Industry rules, regulations, and standards - ISO 27001, GDPR, PCI DSS, and Frameworks of NIST

Duration: June 2024 to December 2024
Tata Communications Limited (TCL) - Network Engineer

- Practical experience in networking fundamentals and advanced networking technologies, supporting secure and reliable network operations.
- Configured and managed key network elements, including firewalls
- Resolved technical issues and support tickets related to international traffic flow and connectivity.
- Acquired knowledge of Zscaler cloud security solutions to enhance network protection

Education

Degree - B.Tech Computer Science & IT - Cybersecurity Specialization
College - Symbiosis Skill and Professional University
October 2025

Degree- Diploma in Computer Engineering
College - Eklavya Shikshan Sanstha Polytechnic
July 2022

Skills

- Cybersecurity Standards - SOC 2, ISO 27001, NIST, PCI DSS, GDPR compliance frameworks
- Logical security, physical security
- Disaster Recovery, Incident Management
- Cloud Computing and Security - AWS
- Microsoft 365: Word, Excel, PowerPoint
- Network Security & Firewall Configuration (Zscaler, basic IDS/IPS)
- SIEM tools, log analysis, threat detection
- Cryptography - Encryption, Hashing Algorithms, Blockchain

Certifications

- EC Council: Ethical Hacking Essentials
- Fortinet: Certified Cybersecurity Associate
- Red Hat: Ansible Automations
- EC Council: Introduction to Cryptocurrency, Dark Web, Anonymity
- Web Development
