Profile

Detail-oriented Legal and Compliance Analyst with hands-on experience supporting regulatory compliance, AML/KYC due diligence, enterprise risk management (ERM), and legal advisory functions within corporate environments. Proven ability to conduct compliance risk assessments, identify control gaps, draft and implement policies and SOPs, and support internal audits and regulatory reviews. Strong knowledge of AML, KYC, GDPR, data privacy, corporate governance, and regulatory frameworks, with a focus on mitigating legal and operational risk for large organizations. Adept at stakeholder communication, documentation, and compliance reporting in fast-paced, regulated environments.

Professional Experience

Legal Analyst, *World DevCorp Technology & Business Solutions Pvt. Ltd.* 06/2024 – Present
Pune

- Provide end-to-end legal and regulatory compliance support aligned with internal governance standards and enterprise risk management (ERM) frameworks.
- Execute AML and KYC due diligence on client and third-party profiles, ensuring adherence to regulatory requirements and internal compliance policies.
- Conduct compliance risk assessments and control testing, identifying control gaps and assessing regulatory and operational risk exposure.
- Support development, implementation, and tracking of remediation action plans to address identified compliance and audit findings.
- Draft, review, and maintain compliance policies, standard operating procedures (SOPs), contracts, and legal documentation to mitigate legal and regulatory risk.
- Prepare compliance monitoring reports, risk assessments, dashboards, and management information (MI) for senior management and stakeholders.
- Support quality assurance reviews, issue validation, escalation, and timely closure of compliance findings.
- Provide advisory support on data protection laws, GDPR requirements, intellectual property matters, and cross-border regulatory obligations.
- Collaborate with legal, compliance, operations, and technology teams to manage compliance incidents and strengthen internal control environments.
- Assist with internal audits, regulatory inspections, and external reviews by providing evidence, documentation, and detailed risk analysis.
- Contribute to process improvement and automation initiatives aimed at improving compliance efficiency, reporting accuracy, and control effectiveness.
