PROFESSIONAL EXPERIENCE

Legal Compliance Associate | Legasis Pvt. Ltd. | July 2025 – Present

- Conduct legal research across Central and State legislations covering Corporate & Commercial, Labour & Employment, Environment, Health & Safety (EHS), Asset, and other regulatory domains to identify statutory obligations, legislative amendments, notifications, circulars, and judicial developments, translating complex legal provisions into actionable compliance requirements.
- Develop and maintain compliance frameworks, regulatory matrices, industry-specific compliance checklists, and License Modules by mapping statutory requirements, compliance triggers, regulatory thresholds, and licensing obligations, while ensuring timely incorporation of legislative updates into the organization's compliance management platform.
- Perform compliance validation, quality control, and legal review across compliance databases and client portfolios to ensure legal accuracy, consistency, and regulatory alignment. Collaborate with clients and cross-functional teams to resolve compliance-related queries through statutory interpretation and practical legal guidance.
- Selected to lead a key compliance platform migration initiative within the first month of joining, overseeing legislative comparison, compliance validation, gap analysis, regulatory content mapping, and data reconciliation across legacy and new systems to ensure legal consistency, data integrity, and seamless business continuity.
- Collaborate with implementation, product, and business teams to translate evolving legal and regulatory requirements into practical, client-centric compliance solutions, ensuring timely delivery and accurate integration of regulatory changes into the compliance platform.
- Assess AI-generated compliance outputs from GPT, Gemini, and Claude against internal legal standards to improve regulatory accuracy and prompt quality, while mentoring new team members on compliance processes, legal research methodologies, platform workflows, and quality standards.
