BHAGYASHREE PARATE

Payroll & HR Systems Analyst | Payroll Compliance × SQL × Power BI Automation

Pune, Maharashtra | +91 8459175514 | bhagyashreeparate307@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Payroll Analyst with 2+ years of experience in end-to-end payroll processing, statutory compliance (PF, ESIC, Professional Tax, TDS), and HR data reporting. Combines a Computer Engineering background with hands-on SQL, Python, and Power BI skills to automate payroll reporting and reconciliation — cut manual reporting time by 30% and ETL effort by 40%. Proven track record managing payroll and compliance for 100+ employees with zero statutory penalties, backed by strong stakeholder management across HR, Finance, Sales, and Supply Chain.

CORE SKILLS

Payroll & Statutory Compliance: End-to-End Payroll Processing, Salary & Incentive Computation, PF, ESIC, Professional Tax, TDS, Labour Law Compliance, Attendance & Leave Management, Audit Readiness

Data & BI Tools: Power BI (Desktop/Service), DAX, DAX Studio, Power Query (M), Star Schema Design, RLS, Scheduled Refresh, Tableau, MSBI

Programming & Databases: SQL (MySQL, MS SQL Server), Python, Core Java

ETL & Data Warehousing: ETL Pipeline Design, Data Modeling, Data Governance, Access Control, Performance Tuning

Platforms: Advanced Excel, Microsoft Power Automate, Azure (Basic)

Analytics: KPI Reporting, RCA, Cohort & Funnel Analysis, Predictive Analytics, Stakeholder Management

WORK EXPERIENCE

Payroll Analyst — ParamTech CAD (IT Consulting / HR Tech) *Pune | May 2024 – Present*

- Process and validate end-to-end monthly payroll for 100+ employees — salary computation, incentives, reimbursements, and attendance/leave reconciliation — maintaining 100% on-time, error-free payroll cycles.
- Own statutory compliance (PF, ESIC, Professional Tax, TDS) and labour law submissions aligned to the Factory Act, ensuring zero compliance penalties across all cycles.
- Built Power BI dashboards for headcount, absenteeism, and manpower utilisation, replacing manual Excel reporting and cutting reporting turnaround time by 30%.
- Automated attendance-to-payroll data integration using Excel and Power BI, reducing manual ETL and reconciliation effort by 40%.
- Maintain and audit employee documentation (joining forms, experience letters, exit records) to document-control and retention standards, ensuring 100% audit readiness.
- Partner with recruitment and management on KPI creation and performance review documentation while safeguarding payroll data confidentiality.

PROJECT EXPERIENCE

Business 360 — Power BI · SQL · Star Schema · DAX Studio

- Designed an end-to-end ETL pipeline from Excel and MySQL sources; built a 10+ table star schema model and published Power BI dashboards with scheduled refresh for Finance, Sales, Supply Chain, Marketing, and Executive teams.
- Created DAX measures, KPIs, and drill-down reports across multiple data sources, cutting report turnaround time by ~25%.
- Optimised dashboard performance via DAX Studio (5% load-time reduction); implemented row-level security (RLS) and access controls.

Finance & Supply Chain Analytics — SQL · Excel

- Wrote 15+ SQL queries to extract and consolidate data across 3+ markets, feeding directly into Power BI reports for stakeholder decision-making.
- Identified a 180% net sales growth trend for Croma in India (FY-2021) through cohort and trend analysis.

EDUCATION

B.E., Computer Science and Engineering — S.B. Jain Institute of Technology, Nagpur Aug 2019 – Jun 2023
